Comment on suggestions for the 2023-24 New South Wales Redistribution

As a previous resident of Warringah I am totally against any redistribution of federal seats which results in the loss of the federal seat of Warringah. The Liberal Party, who used to hold and highly value the seat, are quite opportunistically suggesting that the seat of Warringah should be abolished. This proposal shows no respect whatsoever for the residents of Warringah, nor for that matter, the surrounding seats.

Keep the seat of Warringah.
