Subject: Redistribution of Mayo electorate

To the Redistribution Committee for South Australia,

As a resident of the South Australian electorate of Mayo I wish to register my concerns about any possible electoral redistribution of Mayo. My concerns are based on the following:

1. It is important to keep the integrity of the area which is based on various but related components which, if compromised, could result in substantial adverse effects for business, the culture of the region and the natural environment.
2. The unique combination and wide variety of agricultural, horticultural and cultural pursuits have produced a vibrant tourism industry which provides a broad spectrum of attractions for longer term interstate and overseas visitors who add significantly to the economic viability and stability of the region.
3. A large part of the economy of the area is based on rural activities and encompasses some comparatively remote regions like Kangaroo Island. As such the business and environmental health of these areas is dependent upon community support and cooperation built over many generations and is based on the particular identities and characteristics of the areas which would be lost if widely differing electorates were to be combined. It is therefore imperative that the unique, widely valued and successful structure of the area be maintained.

Yours sincerely, Patricia Goodwin [Redacted]
