SUGGESTIONS FOR VICTORIAN FEDERAL REDISTRIUBTION 2017

Dear Commissioners,

The following document describes possible changes that can be made to the current Victorian electoral boundaries to comply with the increase in Victorian representation from 37 to 38 members.

Overview

Victoria has experienced higher levels of growth compared to the rest of Australia, shown through to additional seat allocation for Victoria. Large parts of this growth have occurred on Melbourne outer fringes, in the south-east, the north and south-west and is projected to continue to grow. This has cause large disparities in current enrolment figures with only 10 of the 37 divisions meeting the requirements. With the additional seat allocated, I have decided to create the seat in the Western suburbs of Melbourne, this seat will be named Fraser, after the late former Prime Minister Malcolm Fraser (1930-2015). I have also decided that the seat of Gellibrand should be renamed Child after Joan Child, AO (1921-2013) first female Labor member and first female speaker of the House of Representatives.

Throughout the submission I have tried to keep existing boundaries as much as possible, but have also tried to reunite Statistical Area 2 (SA2's) to keep similar communities together. Overall 824261 voters will be affected by these proposed changes which is approximately 20% of the voter population of Victoria. For full changes by SA2 see the appendix attached at the end of the document.

South-East Melbourne

South-East Melbourne I have defined as all seats south of the Yarra River located within the Melbourne metropolitan area.

Electorates featured in this section:

- Melbourne Ports
- Higgins
- Goldstein
- Hotham
- Isaacs
- Kooyong
- Chisholm
- Bruce
- Menzies
- Deakin
- Aston

Melbourne Ports

	Current Enrolment		After Redistribution	
Current	105094	-1.74%	105094	-1.74%
Projected	108469	-1.72%	108469	-1.72%

Melbourne Ports falls completely within the AEC guidelines and therefore no changes are necessary with surrounding electorates.

Higgins

	Current Enrolment		After Redistribution	
Current	106308	-0.60%	106308	-0.60%
Projected	109539	-0.75%	109539	-0.75%

Higgins falls completely within the AEC guidelines and therefore no changes are necessary with surrounding electorates.

Goldstein

	Current Enrolment		After Redistribution	
Current	106548	-0.38%	106548	-0.38%
Projected	108916	-1.32%	108916	-1.32%

Goldstein falls completely within the AEC guidelines and therefore no changes are necessary with surrounding electorates.

Hotham

	Current Enrolment		After Redistribution	
Current	100580	-5.96%	110586	3.40%
Projected	102745	-6.91%	113123	2.49%

Hotham is the first electorate which is outside the AEC requirements. I have suggested moving areas of Kingston City Council north of Mordialloc Main Drain into Hotham from Isaacs, (SA2 of Mentone, Mordialloc-Parkdale and Braeside) and the rest of Oakleigh-Huntingdale SA2 from Chisholm. However, this leaves Hotham well over-Quota. So, areas in the East of the current seat will be transferred into Isaacs, from Greater Dandenong City Council. Includes part SA2 of Keysborough, Noble Park, Springvale and the entire of Springvale South.

Isaacs

	Current Enrolment		After Redistribution	
Current	107708	0.70%	108636	1.57%
Projected	111982	1.46%	112719	2.13%

Isaacs currently falls completely within the AEC guidelines, however changes in electorates around Isaacs has cause changes to the electorate. As described above in the Hotham description areas from Greater Dandenong City Council from Hotham comes into the electorate. Other areas which come into the electorate include the rest of SA2 of Noble Park and Dandenong from Bruce and the suburb/SA2 of Doveton from Holt. These changes have been offset with both SA2 from Frankston City Council of Carrum Downs and Skye-Sandhurst being transferred into Dunkley. Overall the seat now is centred on Greater Dandenong City Council and leaves Isaacs within requirement.

Kooyong

	Current Enrolment		After Redistribution	
Current	100726	-5.80%	110442	3.26%
Projected	102804	-6.86%	112763	2.17%

The seat of Kooyong currently sits well below quota. This can be overcome with the addition of the rest of SA2 of Box Hill North being added to the electorate. This puts Kooyong within the requirements.

Chisholm

	Current Enrolment		After Redistribution	
Current	97811	-8.55%	104875	-1.94%
Projected	100333	-9.10%	107197	-2.88%

The electorate of Chisholm is well below quota and the loss of Oakleigh- Huntingdale to Hotham and Box Hill North to Kooyong has left Chisholm needed large areas from surrounding areas. To compensate for those losses the Suburb/SA2 of Glen Waverley- East & Glen Waverley- West adds enough voters to meet the requirements. While remaining at the lower end of the tolerance, I don't believe there are any other areas to easily be transferred into Chisholm.

Bruce

	Current Enrolment		After Redistribution	
Current	95417	-10.79%	109896	2.75%
Projected	97129	-12.00%	111233	0.78%

Bruce is another eastern Melbourne electorate well below quota. This has been compounded by the loss of Glen Waverley to Chisholm and Dandenong and Noble Park to Isaacs. This left me not many options to expand Bruce into. With Holt over quota, Bruce takes areas in the north of that seat, SA2 of Endeavour Hills, and Parts of Narre Warren and Narre Warren North. However, this still left Bruce under quota, the choice was therefore made to cross into Knox City Council. Therefore, Bruce takes the suburb of Rowville to reach quota and retain a relatively strong boundary.

Menzies

	Current Enrolment		After Redistribution	
Current	98857	-7.57%	111005	3.79%
Projected	100436	-9.00%	112929	2.32%

Again, Menzies is well below quota. The addition of the rest of Ringwood North from Deakin and Warrandyte-Wonga Park from Casey along with Chirnside Park will put Menzies within tolerance.

Deakin

	Current Enrolment		After Redistribution	
Current	100139	-6.37%	109364	2.25%
Projected	102467	-7.16%	112208	1.66%

Deakin currently falls below the AEC guideline quotas. As mentioned above Ringwood North has been reunited in Menzies. Areas of Bayswater North and the rest of Croydon from Casey will be transferred into Deakin putting Deakin well within quota.

Aston

	Current Enrolment		After Redistribution	
Current	96121	-10.13%	107576	0.58%
Projected	97600	-11.57%	109258	-1.01%

Aston is another eastern Melbourne electorate well-below quota. With Rowville moving into Bruce, Aston has had to move into the Dandenong Ranges and Yarra Ranges City Council. Overall SA2 of Belgrave-Selby, Upwey-Tecoma, Mount Dandenong-Olinda have moved from La Trobe into Aston. Part SA2 of Boronia- The Basin, Ferntree Gully, Lysterfield join the current sections in Aston.

Eastern Victoria and Mornington Peninsula

Contains the electorates of:

- Gippsland
- McMillan
- La Trobe
- Casey
- Holt
- Dunkley
- Flinders

Gippsland

	Current Enrolment		After Redistribution	
Current	105907	-0.98%	106858	-0.02%
Projected	106760	-3.27%	107733	-2.39%

As with most rural seats, the growth rate is much slower than the rest of Victoria. This put Gippsland very close to the lower quota. Overall not much change, except Gippsland gains the rest of Yallourn North- Glengarry from McMillan.

McMillan

	Current Enrolment		After Redistribution	
Current	120880	13.02%	108732	1.66%
Projected	125461	13.67%	111425	0.95%

McMillan is well-over quota. As mentioned above, it loses 950 voters to Gippsland. However, due to Flinders also being quota, Flinders is now located fully on the Mornington Peninsula. This means McMillan picks up areas East of Western Port Bay. However, with La Trobe loses large numbers to Aston, Pakenham North and South moves from McMillan into La Trobe. La Trobe also takes the remnants of Emerald- Cockatoo from McMillan to leave the electorate well within tolerance.

La Trobe

	Current Enrolment		After Redistribution	
Current	111035	3.82%	102853	-3.83%
Projected	116587	5.63%	109384	-0.90%

La Trobe is over quota and undergoes significant changes to bring it within tolerance. As mentioned earlier large areas of the seat located in Yarra Ranges Shire Council moves into Aston. These includes SA2 of Belgrave- Selby, Boronia- The Basin, Ferntree Gully, Mount Dandenong- Olinda and Upwey- Tecoma along with sections of Monbulk-Silvan and Yarra Valley moving into Casey. Part of Narre Warren North moves into Bruce and Sections of Cranbourne East and Cranbourne South move into Holt. This pushes the seat South and slightly East. It gains Pakenham North and South and small areas from Koo Wee Rup from McMillan. La Trobe also gains small areas located in Casey and McMillan from the SA2 of

Emerald-Cockatoo to unite the area in one electorate. Overall, these changes put La Trobe well within tolerance.

Casey

	Current Enrolment		After Redistribution	
Current	105287	-1.56%	105898	-0.99%
Projected	107625	-2.49%	107833	-2.30%

While Casey currently falls within the AEC guidelines, major changes in the Eastern suburbs have taken large sections out of Casey, causing it to be under quota currently. Casey loses Mount Dandenong-Olinda to Aston, Bayswater North and part of Croydon to Deakin and Chirnside Park to Menzies. In order to counteract that Casey crosses the Yarra River to take areas from Scullin, Jagajaga, McEwen and Indi. While not ideal, current populations in Eastern Victoria doesn't allow any other options. Therefore, the SA2 of Hurstbridge, Panton Hill- St Andrews, Research- North Warrandyte and Wattle Glen- Diamond Creek from Nillumbik Shire Council move into Casey. Along with Kinglake SA2 from the seat of Indi, this puts Casey within tolerance.

Holt

	Current Enrolment		After Redistribution	
Current	121711	13.80%	100984	-5.58%
Projected	131083	18.76%	111707	1.21%

Holt is another electorate on Melbourne South-Eastern growth boundary which is well-over quota. Areas in the north of the current seat move into Bruce (SA2 of Endeavour Hills, Part of Narre Warren and Narre Warren North) and Isaacs (SA2 of Doveton). However, these changes do leave Holt under tolerance. This is overcome with the addition of Pearcedale- Tooradin from over-quota Flinders and the consolidation of Cranbourne with Cranbourne South from Flinders and parts of Cranbourne East (from Flinders) and Cranbourne West (Flinders) to unite Cranbourne into one electorate. These changes allow Holt to be within tolerance.

Dunkley

	Current Enrolment		After Redistribution	
Current	107010	0.05%	108476	1.42%
Projected	108773	-1.45%	110545	0.16%

Dunkley is another electorate which is within the AEC quota guidelines but must be changed due to changes in surrounding electorates. With Isaacs gains in the north of the electorate, it loses Carrum Downs and Skye-Sandhurst to Dunkley. This allows the entire of Frankston City Council to be contained within this electorate. However, this puts Dunkley well over quota, so Mornington and part of Somerville will move to Flinders, putting Dunkley within tolerance.

Flinders

	Current Enrolment		After Redistribution	
Current	119413	11.65%	107220	0.25%
Projected	122834	11.29%	109828	-0.49%

Flinders is well-over quota, and that allows the electorate to be encased entirely within Mornington Peninsula Shire Council. Therefore, Flinders loses areas North of Western Port Bay to Holt (SA2 of Cranbourne South and Pearcedale- Tooradin) and areas East of Western Port Bay to McMillan (SA2 of Koo Wee Rup, Phillip Island and Wonthaggi- Inverloch). However, these losses put Flinders below the quota. However, with Dunkley moving slightly North, areas of Mornington and Somerville move from Dunkley into Flinders. This allows Somerville to be reunited in one electorate and leave Flinders within tolerance.

Northern and Western Victoria

Low levels of growth in regional and rural Victoria has led to some major changes to electorates in this region.

Contains the electorates of:

- Indi
- Murray
- Bendigo
- Mallee
- Ballarat
- Wannon
- Corangamite
- Corio

Indi

	Current Enrolment		After Redistribution	
Current	105823	-1.06%	110277	3.11%
Projected	107510	-2.59%	112015	1.49%

Indi is an electorate which currently falls within the AEC guidelines, however due to changes in surrounding electorates has had to undergo slight changes. The seat loses Kinglake in the South to Casey and gains the rest of Moira and Yea SA2, whilst also gaining the town of Yarrawonga. This puts Indi well within tolerance.

Murray

	Current Enrolment		After Redistribution	
Current	105643	-1.23%	106904	-0.04%
Projected	106668	-3.36%	107846	-2.29%

Murray is an electorate which currently falls within the AEC guidelines, however has undergone slight changes. As mentioned above Murray loses part of Moira and Yarrawonga to Indi. In turn, Murray gains areas west of Loddon Shire in Gannawarra Shire Council (SA2 of Gannawarra and Kerang). The seat gains small areas in Loddon SA2, to unite the area in one electorate along with small areas Euroa and Nagambie SA2 to also unite the areas in one electorate. Overall, these changes bring Murray within tolerance.

Bendigo

	Current Enrolment		After Redistribution	
Current	112053	4.77%	108585	1.52%
Projected	114847	4.05%	111304	0.84%

Bendigo currently sits just above the AEC tolerance. Therefore, the part of SA2's of Macedon, Riddells Creek and Romsey move into the re-aligned seat of Calwell. There are also small changes with boundaries around Bendigo Region- South reunited within Bendigo and Maryborough Region in Mallee.

Mallee

	Current Enrolment		After Redistribution	
Current	99931	-6.66%	110891	3.68%
Projected	99874	-9.51%	110848	0.43%

Mallee is well below quota and need large parts of surrounding electorates. There are two options that came to mind when looking for areas. Either Southern Grampians and coastal areas in Glenelg Shire or Maryborough and Ballarat Northern surrounds. When considering the two, I felt Maryborough had more links to the current parts of the seat compared to Hamilton. So, therefore areas which arrive include SA2 of Maryborough Region, Maryborough and Avoca from Wannon along with Creswick- Clunes from Ballarat. While not ideal the region has links to Maryborough and brings Mallee within tolerance.

Ballarat

	Current Enrolment		After Redistribution	
Current	114365	6.93%	107040	0.08%
Projected	117272	6.25%	109846	-0.47%

Ballarat is over quota and needs to lose voters. Except for slight gains from Corangamite reuniting the SA2 of Smythes Creek, Ballarat doesn't gain any voters. As mentioned above the area of Creswick-Clunes has been transferred into Mallee. Along with small transfer of voters to Wannon to reunite Golden Plains- North, these changes bring Ballarat within tolerance.

Wannon

	Current Enrolment		After Redistribution	
Current	99867	-6.63%	106295	-0.61%
Projected	100062	-9.34%	106795	-3.24%

Major changes with Mallee and Corangamite are needed to place Wannon within quota. As mentioned in Mallee, areas in the north of the seat have been transferred in Mallee. This puts Wannon well below quota. Therefore, it pushes the seat east towards the Surf Coast. Overall, the SA2's of Golden Plains-North, Colac and Colac Region and Otway have been transferred into Wannon. These changes bring Wannon into tolerance.

Corangamite

	Current Enrolment		After Redistribution	
Current	114985	7.51%	103256	-3.46%
Projected	109828	8.57%	108372	-1.81%

As described above in Wannon, large parts of rural areas in the West of the seat have been transferred into Wannon. I have also decided to make some large changes with Corio. Corangamite gains the entire Bellarine Peninsula (SA2 of Clifton Springs, Leopold, Newcomb- Moolap, Portarlington). While not fully necessary, I believe that it would unite the communities of the Bellarine Peninsula in one electorate while also transferring the Geelong suburbs of Belmont and Highton in Corio. However, that left Corio under quota, so I decided to transfer Bannockburn SA2 out of Corangamite into Corio along with part of Golden Plains- South east of the Midland Hwy, including towns located on the Midland Hwy. Overall, these changes bring both Corangamite and Corio within tolerance.

Corio

	Current Enrolment		After Redistribution	
Current	111252	4.02%	105130	-1.71%
Projected	113798	3.10%	107156	-2.91%

Major changes with Corangamite, see above in Corangamite for changes.

Northern Metropolitan Melbourne

Contains the electorates of:

- Melbourne
- Jagajaga
- Batman
- Wills
- Scullin
- McEwen
- Calwell

Melbourne

	Current Enrolment		After Redistribution	
Current	117542	9.90%	106265	-0.64%
Projected	124147	12.48%	112498	1.93%

Large growth in inner-city Melbourne has seen the electorate become well over quota. SA2 part of Fitzroy North will be transferred into the electorate from Wills. I have chosen to move the SA2 of Ascot Vale into Maribyrnong, along with sections from Flemington. The new boundary will move onto the Flemington Racecourse train line before moving onto the Princes Hwy going east before going onto Mount Alexander Road moving North before joining up with the Ascot Vale SA2 boundary. These changes bring Melbourne into tolerance.

Jagajaga

	Current Enrolment		After Redistribution	
Current	104207	-2.57%	106373	-0.54%
Projected	105581	-4.34%	107772	-2.36%

As mentioned earlier in the report in the Casey section, Jagajaga has loss areas in the north (SA2 of Research-North Warrandyte) of the electorate due to Casey crossing the Yarra River. This leaves the seat substantially below quota. However, with Scullin being well over quota, the areas of Bundoora-East and Watsonia can be transferred into Jagajaga. This will unite the whole of Banyule City Council in one electorate and bring Jagajaga within tolerance.

Batman

	Current Enrolment		After Redistribution	
Current	111540	4.29%	107365	0.38%
Projected	114669	3.89%	110457	0.08%

Batman only has to undergo small redistribution. This can be achieved from moving the northern boundary of the seat from the Metropolitan Ring Road to Keon Parade/Mahoney Road and the southern boundary of Bundoora-West. This sees Bundoora-West and Part of Thomastown move into Scullin, bringing Batman within tolerance.

Wills

	Current Enrolment		After Redistribution	
Current	118314	10.62%	109436	2.32%
Projected	122243	10.76%	113183	2.55%

Large growth in inner-city seats is shown in Wills, with the seat well over-quota. As mentioned in Melbourne, the part of Fitzroy North in Wills leaves to go into Melbourne. To overcome the extra voters Brunswick West can be moved into Maribyrnong. However, this leaves Maribyrnong over quota, so I've

decided to unite Strathmore in Wills. This means part of Strathmore moves from Maribyrnong into Wills. These changes put Wills well within tolerance.

Scullin

	Current Enrolment		After Redistribution	
Current	113623	6.24%	105504	-1.36%
Projected	118128	7.03%	111311	0.85%

Scullin and McEwen are the electorates encompassing the major northern growth areas around South Morang and Craigieburn. Therefore, Scullin will undergo large changes to the electorate. The electorate loses areas in the east in Nillumbik Shire to Casey. It also loses Bundoora-East and Watsonia to Jagajaga while gaining Bundoora-West from Batman. However, I've decided to add to ever-expanded areas of South Morang SA2 (Including Doreen and Mernda) into Scullin. This splits the major growth between two different seats, reducing the possibility of one seat pushing well above the 10% in the future. These changes also mean the SA2 of Epping (including Wollert) moves into McEwen. Overall these changes bring Scullin within quota.

McEwen

	Current Enrolment		After Redistribution	
Current	140152	31.04%	103819	-2.93%
Projected	151144	36.94%	112961	2.35%

McEwen needs a significant loss in voters as it is significantly over quota. This seat has loss areas in the south-east with areas of Panton Hill- St Andrews moving into Casey and South Morang moving into Scullin. I also suggest a major realignment with McEwen losing its areas in Macedon Ranges Shire Council along with Sunbury to Calwell. This change therefore concentrates the seat on the Northern metropolitan extremes around Craigieburn and growth areas along with rural areas around Wallan and Seymour. In line with this and with major changes to Scullin the SA2 of Epping is then moved into the seat. These changes bring McEwen back into tolerance.

Calwell

	Current Enrolment		After Redistribution	
Current	111686	4.42%	106523	-0.40%
Projected	115471	4.62%	110434	0.06%

Calwell is an electorate which is realigned to take in more rural areas around the Macedon Ranges. The seat loses areas South of Melbourne Airport (SA2 of Keilor, Keilor Downs, Sydenham and Taylors Lakes) to the new seat of Fraser, whilst also losing areas in the North with Roxburgh Park-Somerton moving to McEwen along with part of Craigieburn-Mickleham which unites that SA2 all in one electorate. With those major losses, the seat moves up the Calder Highway to take areas from both the seats of McEwen and Bendigo. It receives Sunbury and Sunbury-South in Hume City Council from McEwen and Gisborne, Riddells Creek and Romsey in Macedon Ranges Shire from McEwen along with Macedon from Bendigo. These major changes provide more flexibility in future redistributions and puts Calwell within tolerance.

Western Metropolitan Melbourne

Contains the electorates of:

- Gellibrand (to be renamed Child)
- Lalor
- Maribyrnong
- Fraser (new seat created)
- Gorton

Child (Formerly Gellibrand)

	Current Enrolment		After Redistribution	
Current	111245	4.01%	106538	-0.39%
Projected	114860	4.07%	110456	0.07%

Naming

The current seat name of Gellibrand is named after lawyer and explorer, Joseph Gellibrand (1786-1836). Whilst being important in exploring much of Victoria around Melbourne and being first Attorney-General of Van Diemen's Land, I believe a more recent and important character should be recognised. Joan Child, AO (1921-2013) was the first female Labor member of the House of Representatives and later became the first female Speaker of the lower house. This was a monumental moment in Australian politics and led the way for women in Australian parliament and the ALP.

Changes

The seat only must undergo minor changes as it just above the AEC guidelines. Changes include to loss of Ardeer-Albion to Fraser and Braybrook and Sunshine to Maribyrnong. The seat gains the rest of Altona Meadows from Lalor to unite the SA2 in Child whilst also gaining Laverton from Lalor.

Lalor

	Current Enrolment		After Redistribution	
Current	131058	22.54%	104769	-2.04%
Projected	141199	27.93%	111166	0.72%

Areas around Werribee have seen significant growth in the past few years. As mentioned above the seat loses Laverton and part of Altona Meadows to Child. The seat also loses sections of Tarneit SA2 and Truganina SA2 to Gorton. This pushes the boundary south from the Wyndham City Council boundary to Sayers Road, with all areas north of Sayers Road moved to Gorton. These changes overall place Lalor within tolerance.

Maribyrnong

	Current Enrolment		After Redistribution	
Current	113038	5.69%	108751	1.68%
Projected	116597	5.64%	112232	1.69%

The seat of Maribyrnong has large changes due to the electorates surrounding it. The seat gains areas south of the Maribyrnong River of Braybrook and Sunshine from Child (currently Gellibrand). Maribyrnong also gains areas from Melbourne with SA2 of Ascot Vale and parts of Flemington (see Melbourne for boundary details) along with Brunswick West from Wills. This allows areas in the west of the seat to be transferred into the new electorate of Fraser. The SA2 include: Keilor Downs, St Albans and Sunshine North. These overall changes push Maribyrnong back within quota.

Fraser

Current Enrolment			After Redistribution	
Current	NEW SEAT	-	108140	1.11%
Projected	NEW SEAT	-	112085	1.55%

Name

I'm proposing that the new electorate be named after the former Prime Minister John Malcolm Fraser (1930-2015). It would follow on after the renaming of Throsby to Whitlam in the 2013 NSW redistribution and follow the tradition of naming electorates after former Prime Ministers.

Changes

As it is a new seat the voters come from numerous other seats. The seat will be based in Brimbank City Council and contains mainly more established western Melbourne suburbs. Areas gained include Ardeer-Albion from Child (formerly Gellibrand), Cairnlea, Delahey and Hillside from Gorton. Keilor, Keilor Downs, St Albans- North and South from Calwell and Maribyrnong, along with Sydenham and Taylors Hill and Taylors Lakes from Calwell. The seat however does take in some growth areas around Hillside and is flexible with both Gorton and Maribyrnong in future redistributions.

Gorton

Current Enrolment			After Redistribution	
Current	121382	13.49%	101044	-5.53%
Projected	128705	16.61%	108598	-1.61%

Gorton is the final electorate and has needed large changes due to it being well over quota. Large sections of the seat have been transferred into Fraser (SA2 of Cairnlea, Delahey, Hillside, Sydenham and Taylors Hill), however it also loses small section in the north with Sunbury-South moving into Calwell. With Lalor being well over quota as well, Gorton picks up areas of Tarneit and Truganina north of Sayers Road. These changes set Gorton well within the AEC tolerance range.

Conclusion

This is my opinion on possible changes to Victorian electoral boundaries, and for more information on the SA2 breakdown see the following appendix. If anyone at the commission want clarification or have any questions, feel free to email at:

Key:
 SA2 Remaining- Blue
 SA2 Gained- Green
 SA2 Leaving- Red

APPENDIX 1- Table of SA2 per Electorate

ASTON

SA2	Current	Projected
Bayswater	8173	8383
Boronia- The Basin	12673	13110
