New proposed boarders of Gellibrand

I would like to support the new boarders that are being proposed for the Federal seat of Gellibrand. As a fifth generation of my family all living in the old City of Williamstown. When children of most of my fiends have reset their lives, they have settled in Altona, Point Cook, Tarneit, and Werribee, usually because of the cost of housing. I also think that the State seat of the Williamstown should have been extended to Altona rather than to Footscray at the last (I think) disputation. It is good to see who ever was involved in changing the new boarder's have taken the people that reside in Williamstown that have many more things in common with the new propped boarder's than they have with the Footscray section.

Yours Sincerely,

Graham McGuire J.P. LL.B.
