Berowra - only needs to gain that part from Bradfield, doesn't need to shed territory to Mitchell or gain from Bennelong

Eden-Monaro - Goulburn doesn't belong with Eden-Monaro, it would have better community of interest with new Whitlam or Riverina. Eden-Monaro should instead stake more of Eurobodalla from Gilmore which is way over quota.

Fowler - should shed chipping Norton to Hughes and get parts of Werriwa instead which can take in the parts of Campbelltown from Macarthur instead of Hughes

Gilmore - should shed more of Eurobodalla to Eden-Monaro given it's projected over quota instead of just parts to get in slightly under

Greenway - should be a Blacktown only division, the northern parts of the hills can stay in Mitchell, can take the parts of Blacktown from Parramatta and McMahon

Hughes - there should be a counter clockwise territory swap. take in chipping Norton from Fowler which can take part of Farfield and Liverpool from Werriwa and that can take the parts of Campbelltown from Hughes

Hume - while I agree on the boundaries the name doesn't sit right the name belongs in the southern highlands region in my opinion. Should consider retiring the name Riverina and making that Hume and making a new name for that area. Suggestions are Walton after Nancy-Bird Walton and Burragorang after the lake.

Hunter - should shed territory to Shortland from Lake Macquarie IGA and tried to keep Hunter even though named after the person based in the Hunter. New England is becoming elongated and should expand east into Port Macquarie surrounds to reduce the surplus in Lyne. This way Hunter can in future regain other parts of the Hunter Valley. It would be better for over quota divisions to shed areas with higher growth to those of lower growth and those under quota to take in areas with higher growth. I.e Hunter shedding parts of Lake Macquarie to Shortland and New England taking in parts of Lyne.

Lyne - should shed parts of Port Macquarie surrounds to New England in order to cover deficits there and take in eastern shore of Paterson as I have shown

McMahon - should take in less of Blacktown from Greenway allowing that division to be a

Blacktown only division and instead take in Girraween from Parramatta so that can be solely made out of the city of Parramatta.

Mitchell - Not lose the hills to greenway and not tak in west pennant hills from Berowra. Can simply shed all of Parramatta to Parramatta and use the m2 as the boundary as ive shown

New England - instead of gains MUswellbrook should expand east into Lyne to tke in Port Macquarie surrounds to avoid elongating the division

Page - should consider moving it to the edge of the Richmond river and highway

Parkes - should try and avoid taking in West Wyalong/Bland lga

Parramatta - can be made out of the City of Parramatta instead of going in Blacktown and Cumberland

Paterson - Should take in the rest of Maitland from Lyne and shed its eastern shore to Lyne as ive demonstrated

Richmond - should consider trimming off the southern tip and making it up to the river and highway.

Riverina - name should be retired and made the new Hume. Doesnt need to lose Bland

Shortland - should take in parts of Lake Macquarie from Hunter instead of hunter dropping Muswellbrook

Warringah - should be renamed Sydney Harbour as it emposses the whole harbour.

Werriwa - there should be a counter clockwise territory swap. take in parts of campbelltown from hughes which can take parst of liverpool from werriwa and that can take the parts of fairfield and liverpool from werriwa
