# Objection to removal of the Federal seat of North Sydney

---

My family of three adults object most strongly to the proposed abolition of the seat of North Sydney . We have lived in this electorate for nearly 30 years. We have lived, educated children and worked here for that entire period. We have also worked for this electorate in a voluntary capacity for the last two elections.

We understand the population of this electorate is set to massively increase with the opening of the two new metro stations and believe this draft decision is based on flawed predictions of population projections.

We do not share the above history or affiliations with the division of Bradfield and believe it is unreasonable to expect this to organically happen.

Yours faithfully

Anne C Sheldon
