# Submission in support of the proposed changes to the boundaries of the electoral division of Mackellar

I would like to support the proposed changes to the boundary of Mackellar electoral division as detailed in the Australian Electorate Commission's report titled "Proposed redistribution of New South Wales into electoral division May 2024".

In my opinion the proposed new boundaries are effective in keeping Mackellar as a unique part of Sydney where there is a shared value of the coastal environment not always fully appreciated by people in other electorates. By containing the electorate wholly within the Northern Beaches Council, it allows us to not only maintain this cultural connection but be able to advocate for the protection of one of Sydney's most precious and unique environments.

In addition to maintaining the culture, it removes the confusion caused by many people who live in Dee Why and Forestville at election time not knowing clearly whom their representative is.

As stated, I am in full support.
