

**THE FEDERAL
REDISTRIBUTION
NEW SOUTH WALES**

Objection 730

Sue Brown

1 page

I wish to object to the proposed electoral boundary redistribution for Epping NSW 2121. I have lived in Epping for the past 17 years and spent my first 25 years in Carlingford, so I know and understand this area well.

Epping has closer ties with North Epping, Eastwood and Ryde than Berowra, Pennant Hills etc.

The M2 forms a logical and significant boundary, and the proposed change ignores this. The proposal makes no sense.

Epping has long been forgotten, and now that we finally have had a State member (Jerome Laxale) who has advocated for Epping and its residents, why place us with a different constituent whose focus is further north.

Thanks for your consideration

Sue Brown
