

**THE FEDERAL
REDISTRIBUTION
NEW SOUTH WALES**

Suggestion 19

Ben Last

20 pages

Federal Redistribution – NSW

Summary

This suggestion is for the whole of NSW

Northern NSW: divisions move north. Cowper loses area to Lyne, Lyne to Paterson, Paterson to Hunter, with Hunter losing Muswellbrook LGA to New England.

Central Coast: Shortland and Dobell gain from Hunter. Robertson gains from Dobell.

Western NSW: divisions move towards Sydney. Riverina loses to Page and Farrer, and gains Boorowa and Goulburn from Hume. Hume gains from Macarthur, moving into south-west Sydney.

Southern NSW: minor changes

Sydney:

- Berowra is abolished. Bradfield moves north, having flow-on effects down the North Shore and up the Northern Beaches. Mitchell moves north too, having flow-on effects for Parramatta and on to the Eastern Suburbs and Inner West.
- Hughes moves into south-west Sydney. Banks crosses the Georges River to cover the remainder of Sutherland Shire, allowing for less drastic changes to Inner West divisions.

I have used current and projected enrolment figures from the Australian Electoral Commission (AEC) website ([link](#)). I have used variations from quota from Antony Green's website ([link](#)). I have used maps from the AEC, from Antony Green and from Wikipedia.

I have tried to be as accurate as possible when recommending areas to be redistributed. Where I have specified LGAs, towns or roads, I have used population data from the AEC, the ABS, Wikipedia and occasionally council websites. Where I have said 'part of' or 'area around', these are estimates.

My criteria for recommending changes were...

1. Legal requirements relating to redistributions
2. The following 'hard borders':
 - a. The Great Dividing Range, separating New England from NSW north coast divisions
 - b. The Hawkesbury River, separating the Central Coast from Sydney
 - c. The Blue Mountains, separating inland electorates from Sydney
 - d. The Royal National Park, separating south coast electorates from Sydney
 - e. Kuring-gai Chase National Park and Gadigal National Park, Sydney Harbour and Parramatta River, separating different divisions within Sydney
3. LGA (council) boundaries, where possible

In short, I found the only way to account for Sydney's growing relative population is to pull in Hume (see image below). All other changes flow logically from that.

Please see the more detailed maps as well to get a better understanding of the key aspects of my suggestion, even if I have over- or under-estimated the areas required to be redistributed for each Division.

Image 1: 'Hard borders' and resultant flow of redistributions

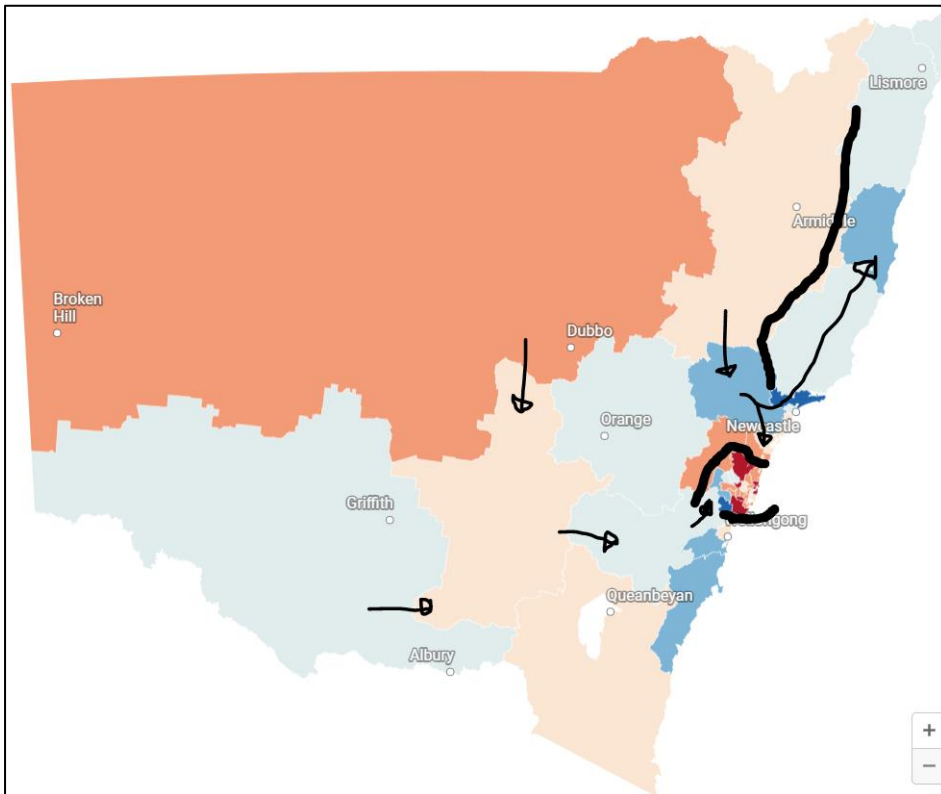

Image 2: suggested boundaries – rural and regional NSW

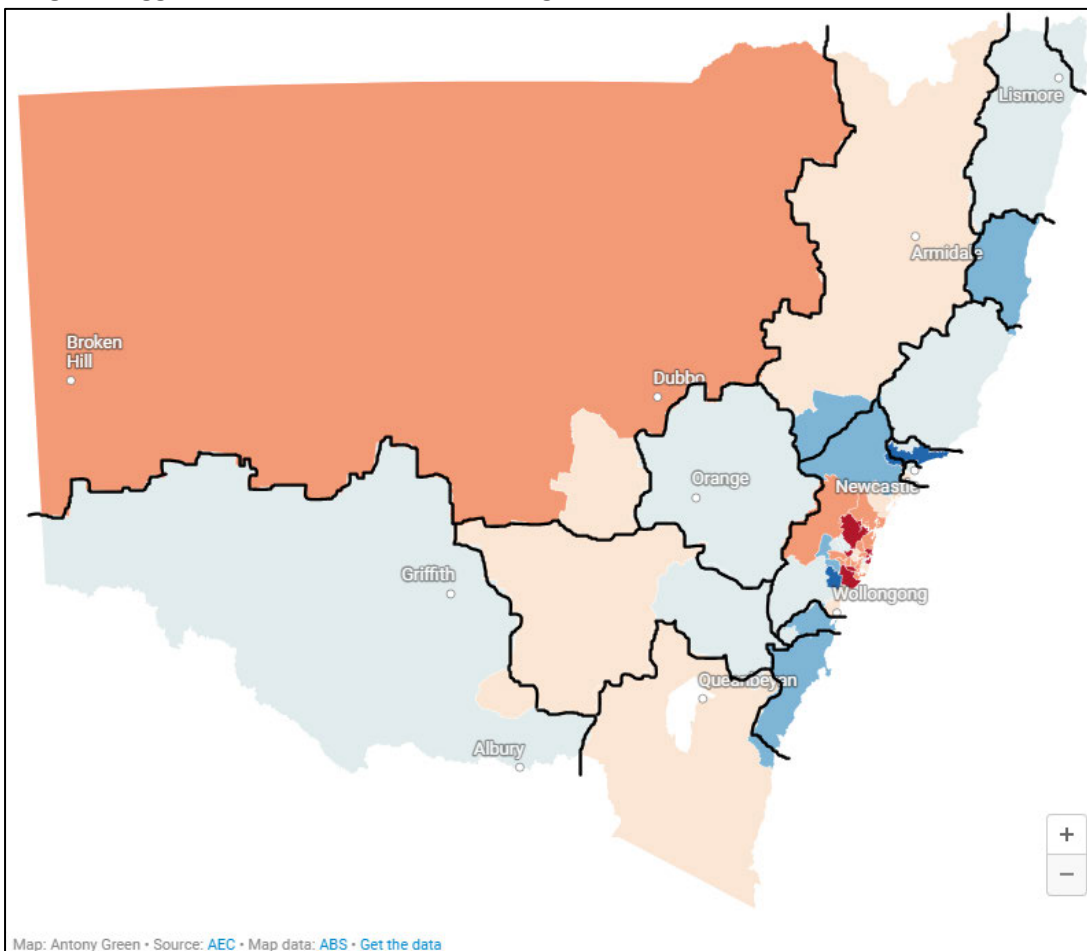

Image 5: proposed boundaries – Inner West, South and South-west Sydney, including the Division of Hughes moving into south-west Sydney and the Division of Banks crossing the Georges River
