

# Objection 319

Marimba Wilkie

1 page

I am saddened that I even have to write this objection- shame on you! After the defeat of the voice that we even have to discuss changing the name of Casey to Barak in honour one of the most important indigenous elders of the Wurundjeri tribe is pitiful- it is the very least we as the ancestors of white racist colonisers can do! Not only that the fact that the name Casey is similar to the city of Casey and therefore confusing to voters is a problem for democracy in Australia, people are busy and living under extreme cost of living pressures many don't have time to work out the nuances - again the very least you can do is change the name. The AEC is central to our democratic future, at threat from so many things right now, make the decision to be on the right side of history and every small right step we can take **MUST BE TAKEN**, change the name of Casey to Barak.
