Dear Committee,

As local community leaders in the Yarra Ranges, we write with regards to the draft boundaries of the seat of Casey.

We would like to commend the Committee on maintaining the seat of Casey entirely within the Yarra Ranges local council area.

We live in such a special region, with strong community, cultural, historical and social ties. Not only are these non-tangible ties such as our social and cultural links but tangible travel links through the three major highways – the Melba, Maroondah and Warburton Highways - which connect us to one another.

As local sporting clubs, we believe that decision by the Committee to keep our communities all the way from Lilydale to Healesville, Coldstream to Kilsyth, and the many towns in between represented in the one seat will ensure that our communities are best represented as well as keep our cultural and social interests together.

Again, we commend the Committee on recognising our special region and keeping the seat of Casey together within the Yarra Ranges local council area to keep our communities best represented and connected.

We also note Committee has decided to include the Wonga Park area and St Andrews area in the new seat of Casey. We believe this inclusion makes the most sense to ensure that the seat of Casey meet the requirements for the number of voters, and that these areas share similar interests that tie them to the existing parts of Casey.

Thank you again for your work so far, particularly with the seat of Casey, and thank you for considering our additional comments.

Yours faithfully,

Toby Millman  
President  
**Healesville Football Netball Club**

Ash Rankin  
President  
**Coldstream Football & Netball Club**

Anthony Simmons  
President  
**Lilydale Football & Netball Club**
