Comment on name of new WA electorate: OB 22, OB 24, OB 37 OB 43, OB 45

I would like to acknowledge the excellent idea of recognizing the War Nurses of WW11 in the name of the new Electorate from the Federal Redistribution.

While I also acknowledge the contribution South Australian Vivian Bullwinkel made to commemorate the Bangka Island massacre, I believe we must not forget the 21 other nurses who made the ultimate sacrifice.

Two young nurses, in particular, from farms in the region of the new Electorate namely Minnie Hodgson and Alma Beard deserve to be remembered.

They were gunned down as they were forced to wade out into the water.

I think it would be wonderful if the new Electorate be named after Minnie and Alma.

I would support Hodgson -Beard as the electorate name.
